The screenshot shows a Discuto platform interface for a discussion board titled "Ideen für das Stuwerviertel". The board is set against a background map of Vienna's 10th district, showing various streets and landmarks. The main title "Ideen für das Stuwerviertel" is displayed prominently. Below it, a subtitle reads "Expeditionen ins Stuwerviertel". The interface includes a navigation bar with "Description" and "Ideation" tabs, and a search bar at the top right. On the left, there's a profile strength section showing "LEVEL 3" and "TOTAL = 85 XP" with a progress bar. A sidebar lists categories: "All", "Freizeit", "Miteinander", "Sonstiges", and "Wohnumfeld". The main content area displays two ideas:

The screenshot shows a web page from Discuto. At the top, there's a navigation bar with the Discuto logo, language selection (EN), features, discussions, pricing, blog, contact, sign in, and a yellow "TRY FOR FREE NOW" button. Below the navigation is a large banner with the text "Data-enabled ideation" and a background image of many hands raised. On the right side of the banner, there are icons for 4 comments, 4 likes, 0 messages, and a calendar indicating the project ends on 27 OCT. A "FOLLOW IDEATION" button is also present. Below the banner, there are three tabs: "Description", "Ideation", and "Data", with "Data" being the active tab. The main content area contains text about the transformation of a square in front of a school, mentioning the author, date, and reasons for improvement. It also lists "Data found" links to "Schulen Standorte Wien" and "Raumbuch für Amtshäuser, Kindergärten und Schulen der Stadt Wien". A link to "Ergänzungen zum Raumbuch" is also provided.

Umgestaltung des Vorplatzes vor der Wolfgang-Schmelzl-Schule Author: Vadim Savenkov Date: 09/30/2017 - 3:54am Der Vorplatz der Schule sollte verkehrs frei und kinderfreundlicher umgestaltet. Die Schule fehlt einen Raum, um einfach draußen mit den Kindern zu gehen. Die aktuelle Straße bietet schlechte Aufenthaltsqualität.
